EXPERIENCE

Ignite KY, Remote— *Lead Front-End Developer*

April 2023 - Present

Collaborated with a team of web development professionals to design, develop, and deploy engaging and functional websites for clients.

Actively participated in client meetings and discussions to gather requirements, provide technical insights, and propose innovative solutions that aligned with client goals.

Leveraged my expertise in front-end and back-end development to create responsive and visually appealing web interfaces using HTML, CSS, JavaScript, and other modern web technologies.

Successfully optimized websites for search engine visibility, employing best practices in on-page optimization, keyword analysis, and metadata implementation.

Demonstrated strong problem-solving skills by troubleshooting and resolving technical issues promptly, ensuring minimal disruption to website functionality and user experience.

Actively stayed up-to-date with industry trends, emerging technologies, and best practices in web development, continuously improving skills and sharing knowledge with the team.

Contributed to the growth and success of Ignite KY by actively participating in internal initiatives, providing constructive feedback, and fostering a collaborative and innovative work environment.

Site Scout— *Founder, Lead Developer*

April 2023 - Present

Conceptualized, designed, and developed Site Scout, a Software-as-a-Service (SaaS) application that empowers website owners to effortlessly optimize web pages for on-page SEO.

Created a robust and scalable architecture for the application, incorporating industry best practices and utilizing modern technologies to ensure optimal performance and security.

Developed the entire front-end and back-end of the application, using

SKILLS

Proficient in HTML, CSS, and JavaScript.

Strong knowledge of React, Vue, Svelte and other modern front-end frameworks.

Experienced in designing and developing responsive web applications for desktop and mobile devices.

Knowledge of version control systems such as Git.

Experience in integrating APIs and third-party libraries.

Knowledge of SQL and no-SQL database implementations.

Experienced with back-end frameworks like NextJS, Remix, and SvelteKit.

Excellent problem solving and creative thinking skills.

Familiar with “Backend as a service” platforms such as Firebase and Supabase.

Implementation knowledge of popular payment processors such as Stripe.

technologies such as React, Remix, Firebase, Stripe.

Designed an intuitive user interface and engaging user experience, focusing on usability and simplifying complex tasks for users.

Integrated secure payment gateways and subscription management systems, enabling users to seamlessly sign up and pay for the service.

Conducted thorough testing and debugging to ensure the reliability and stability of the application, addressing any reported issues promptly and effectively.

Managed the deployment and hosting of the application.

Freelance— *Web Developer*

February 2022 - April 2023

Engaged in direct client communication, collaborating closely with clients to understand their specific requirements, goals, and target audience for their websites.

Utilized effective project management techniques to plan, design, develop, and launch websites tailored to each client's unique needs and preferences.

Developed websites using a combination of front-end and back-end technologies, including HTML, CSS, JavaScript, and relevant frameworks or content management systems (CMS).

Employed responsive web design techniques to ensure seamless user experiences across different devices and screen sizes.

Assisted clients with website deployment, domain registration, hosting setup, and content migration, ensuring smooth transitions from development to production environments.
